A Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable denulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" ic. subditing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of fiesh, loss of appetite, with weak storach, as in the early stage, of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the lesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not care consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchial and larryngeal troubles, and chronic sore threat with hoarseness. In acute coughs it is not so effective. It is in the lingering coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures. Send for and read the little book of extracts, treating of the properties and uses of the several medicinal roots that enter into Dr. Pierce's Golden Medical Discovery and learn why this medicine has such a wide range of application in the cure of diseases, It is sent free, Address Dr. R. V. Pierce, Huffalo, N. Y. The "Discovery" contains an alcohol or harmful, habit-forming drug. Impredients all printed on each bottle wrapper in plain English.

Sick people, especially those sinfering from diseases of long standing, are invited to consult Dr. Pierce by letter, free. All correspondenc A Valuable Agent.
